

Table. Inclusion and exclusion criteria.

Inclusion criteria	
Criterion	Description
I	Articles related to the harmonization or some type of work carried out between Scrum and the ISO 9001 standard or one of its Latin American adaptations: NTC 6001, NTG 66006 or NTE INEN 2537.
II	Full articles published between 2015 and 2021 in workshops, journals, conferences with recognition and peer review.
III	Technical reports, gray literature describing facts based on experience and / or observation.
Exclusion criteria	
I	Studies available in the form of presentations, abstracts or discussion studies.
II	Duplicate jobs.
III	Works that do not address the area of interest directly.
IV	Studies where their research contribution is not related to the harmonization and / or integration between Scrum and the ISO 9001 standard or its Latin American adaptations: NTC 6001, NTG 66006 or NTE INEN 2537.
V	Articles where a version prior to the ISO 9001: 2015 standard is used.
VI	Studies in books or book articles. On the other hand, the references of each article were not evaluated, that is; The backward and forward snowballing effect was not taken into account.
